FULLSTACK WEB DEVELOPER

Full Stack Developer with a Computer Science degree from Jimma University and hands-on experience building production-ready applications with React, Next.js, and Node.js. During my internship at EagleLion Systems Technology, I developed a full-stack e-commerce application, and independently built an AI-powered mental wellness chatbot for my final year project, integrating OpenAI, Groq, and Gemini APIs. Proficient in modern tools including TanStack Query, Zustand, Prisma, Better Auth, and Tailwind/shadcn, with a strong interest in AI-integrated applications. Eager to bring a builder's mindset and fast-learning ability to a full stack engineering role.

TOOLS & SKILLS

Javascript/Typescript
NextJs/React
Git/Github

Postgress/MongoDB
Curser/Antigravity
Backend integration

AI integration
NodeJs
Serverless Architecture

EDUCATION

Jimma University
BSC in Computer Science

2022/23 - 2026

PROFESSIONAL EXPERIENCE

EagleLion Systems Technology

Jul - Sep 2025

Front-End developer and Backend Integrater Intern

- Built responsive, reusable UI components for an e-commerce platform using React/Next.js, improving page load performance and cross-device usability.
- Integrated RESTful APIs to connect front-end interfaces with backend services, enabling real-time product, cart, and order data handling.
- Implemented authentication and user session flows, ensuring secure and seamless login/checkout experiences.
- Collaborated with backend developers to design and consume API endpoints, resolving data inconsistencies and improving response handling.
- Debugged and optimized existing front-end and integration code, reducing UI bugs and improving overall application stability.

Prodigy Info Tech

Aug 1 - Aug 31 2024

Web developer Intern

- Worked on implementing responsive design principles to enhance user experience.
- Collaborated with a team to debug and improve existing projects.
- Assisted in developing and optimizing web applications using web technologies
- Contributed to the design and implementation of RESTful APIs to support scalable front-end functionality.

PROJECTS

E-Commerce Platform | *Next.js, React Query, Zustand, Tailwind CSS, Git/GitHub, Postman, Vercel, Leapcell*

- Developed the frontend as part of a collaborative team, working with a backend developer to design and integrate RESTful API functionality using React Query for efficient data fetching and caching.
- Implemented persistent client-side state using Zustand, ensuring cart and user data remained intact across page refreshes.
- Built key features including vendor product listings with dedicated vendor pages, product ordering, reviews, and cart management.
- Developed an admin dashboard to manage platform activity and oversee vendor/user operations.
- Deployed the application using Vercel and Leapcell, collaborating via Git/GitHub and Postman for API testing.
- Github: <https://github.com/dagiz6/e-commerce2>
- Live: <https://elst-e-commerce.vercel.app/>

Mental Wellness Chat Assistant | *Next.js, PostgreSQL, Prisma, Tailwind CSS, Better Auth, Groq AI, Addis AI*

- Designed and built a bilingual (English/Amharic) AI-powered mental wellness platform using a serverless architecture with direct frontend-to-database communication.
- Integrated Groq AI for English and Addis AI for Amharic conversational support, using custom system prompts to guide the AI toward safe, purpose-specific responses.
- Built a journaling feature allowing users to log and track their mental wellness progress, with AI-driven analysis of entries.
- Implemented a daily tips system delivering personalized mental health advice to users.
- Used Better Auth for secure user authentication and Prisma/PostgreSQL for structured data management.
- Github : <https://github.com/dagiz6/Mental-Wellness-Assistance>
- Live : <https://mental-wellness-assistance.vercel.app/>

Netflix Clone | *React.JS*

- Built a responsive, Netflix-inspired UI using React, replicating core layout patterns like hero banners, horizontal scrollable rows, and modal previews.
- Implemented dynamic content rendering by fetching and displaying movie/show data from a public API, organized into categorized rows (trending, top-rated, genres).
- Focused on pixel-perfect styling and smooth UI interactions to closely match the original platform's look, feel, and responsiveness across devices.
- Github : <https://github.com/dagiz6/netflix-clone>
- Live : <https://netflix-clone-delta-three-21.vercel.app>

To Whom It May Concern

This certificate is issued to Mr DAGIM TASHAT GUDISA
upon his/her graduation with BSc Degree in Computer Science.
(Regular) on June 25, 2026. His/Her CGPA is 3.36. The original
diploma and transcript will be issued upon the discharge of the cost
sharing duty.

Exit Exam : Passed, Result: 63%

Sincerely

LETTER OF RECOMMENDATION

Date: July 1, 2026

Student Full Name: Dagim Tamrat Gudisa
Student ID No.: PV0563/15

To Whom It May Concern,

It is with great pleasure and without any reservation that I write this Letter of Recommendation on behalf of the above-named student. I am Gelana Abdisa Gemechis (MSc), Lecturer and Head of the Department of Computer Science at Jimma University, Agaro Campus. In this capacity, I have had the privilege of closely observing and interacting with our graduating students throughout their academic program, including the individual named above.

The above-named student has successfully fulfilled all academic and professional requirements of the **Bachelor of Science degree program in Computer Science** at **Jimma University, Agaro Campus**, and is a proud member of our graduating class of 2026. Throughout his years of study, he demonstrated commendable dedication, intellectual curiosity, and a consistent commitment to excellence in all aspects of his academic work.

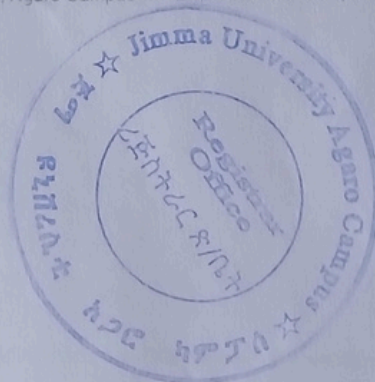

Our program at Jimma University, Agaro Campus offers a rigorous and comprehensive curriculum encompassing a wide range of subjects. He has successfully navigated this demanding program and has emerged with both a solid theoretical foundation and strong practical skills necessary for the modern technological workplace.

Based on my professional assessment, I am fully confident that he possesses the technical competence, ethical grounding, and professional character necessary to make a meaningful and positive contribution to any organization, academic institution, or professional setting he chooses to pursue. I therefore recommend him wholeheartedly and without reservation for any position of employment, further academic study, internship, fellowship, or any other opportunity for which he may be applying.

Yours sincerely,

Gelana Abdisa Gemechis, MSc
Lecturer & Department Head, Computer Science

Jimma University, Agaro Campus — Department of Computer Science — July 2026

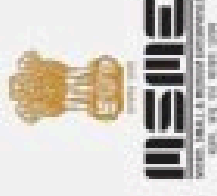

CERTIFICATE OF COMPLETION

01/09/2024

THIS CERTIFICATE IS PROUDLY PRESENTED TO

Dagim Tamirat

for successfully completing a **1-month** internship from **1st August, 2024** to **31st August, 2024** in **Web Development** with outstanding remarks at Prodigy InfoTech.

contact@prodigyinfotech.dev

CERTIFICATE of completion

MANAGER OF ARTIFICIAL INTELLIGENCE(AI) WORKSHOP

THIS CERTIFICATE IS HEREBY AWARDED TO

DAGIM TAMIRAT

TM

For the successful completion of
a full-day workshop on September 20, 2025,
at ALX Capstone Hub, in Ethiopia. Topic:

AI at Work: Managing Teams of Large Language Models (LLMs).

Curriculum:

Testing seven leading LLMs;
Choosing three LLMs as team of engineers;
Managing the three LLMs to solve a unique
problem together;
Pitching and demonstrating the final solution
to peers and judges.
